Winter winds may blow,
And snow may fall,
But we like Springtime
Best of all.

How sweetly the red birds and bluejays sing,
Warbling a sweet carol of the Spring,
With the sunshine and the gentle breeze,
And the lazy house cat scratching fleas,
And how the dog does jump and bark,
As he chases after the meadow lark,
And the little frogs in the brook do sing,
Seeming to tell us that this is Spring.

See How Easy Your Boy Can Handle This Plow

LOOK at the picture shown below, taken from an actual photograph. The child seated on an Emerson Foot-Lift Plow has raised with an easy touch of her foot a 200-pound man. That is the test and proof of Emerson control. It is all done with the feet. In or out of the hardest soil there is no plow in the world like an Emerson. Think how easy this plow is for your boy to handle. Come in with your boy, to see the

Emerson Foot-Lift Gang

See how by carrying the load on large wheels nearest the team—you save 100 pounds draft when plowing 6 inches deep, or deeper. Note the 2000-mile magazine wheel boxes and axles which absolutely insure durability.

All the Emerson good points can't be explained in this space, but it will be worth money to you to know them.

Also ask about the other famous Emerson Foot-Lift Implements—triple gang plows, mowers, cultivators, etc. Come in this week sure.

United Doctors, Specialists, at the Pickwick Hotel.

WILL REMAIN TWO DAYS ONLY.

Friday and Saturday, April 12th and 13th.

The United Doctors, licensed by the state of Missouri for the treatment of deformities and all nervous and chronic diseases of men, women and children, offer to all who call on this trip, consultation, examination, advice free, making no charges whatever, except the actual cost of the medicine. All that is asked in return for these valuable services is that every person treated will state the result obtained to his friends and thus prove to the sick and afflicted in every city and locality, that at last treatments have been discovered that are reasonably sure and certain in their effect.

These doctors are considered by many former patients among America's leading stomach and nerve specialists and are experts in the treatment of chronic diseases and so great and wonderful have been their results that in many cases it is hard indeed to find the dividing line between skill and miracle.

Diseases of the stomach, intestines, liver, blood, skin, nerves, heart, spleen, kidneys, or bladder, rheumatism, sciatica, diabetes, bed-wetting, leg ulcers, weak lungs and those afflicted with long-standing, deep-seated chronic diseases, that have baffled the skill of the home physician, should not fail to call.

According to their system no more operations for appendicitis, gall stones, tumors, goiter or certain forms of cancer. They were among the first in America to earn the name of "Bloodless Surgeons" by doing away with knife, with blood and with all pain in the successful treatment of these dangerous diseases.

If you have kidney or bladder troubles bring a two ounce bottle of your urine for chemical analysis and microscopic examination.

Deafness often has been cured in sixty days.

No matter what your ailment may be, no matter what others may have told you, no matter what experience you have had with other physicians, it will be to your advantage to see them at once. Have it forever settled in your mind. If your case is incurable they will give you such advice as may relieve and stay the disease. Do not put off this duty you owe yourself or friends or relatives who are suffering because of your sickness, as a visit this time may help you.

Remember this free offer is for two days only.

Married ladies must come with their husbands, and minors with their parents.
